How do you see heart-heart? Xenoblade Chronicles Affinity Heart to Heart not available (Picture Credit: Nintendo) Once found the symbol for a heart to heart (Two hands You can examine it by pressing A. Depending on where you are in the plot, you might be told the requirements for heart-to-heart viewing. If you haven’t progressed far enough, you won’t get that much either. This happens for a couple of reasons: firstly, you might not have even met the characters in your heart to heart, and secondly, there are some spoilers just in knowing who is in a heart scene. If you have progressed far enough, however, the requirements will be displayed. This will include both characters involved and the affinity requirement. Once you can complete a heart to heart, you will be given a scene cut between two characters. There will be two points in the dialog where you choose a character response. There is a right answer and a wrong answer to each of these. The right answer will give you four affinity points, while the wrong answer will cost you four affinity points. Any heart-to-heart with more than 60 different Heart-to-Hearts in the game, it’s easy to overlook a few. Even if you happen to find them all, many cannot be completed when you meet them for the first time. Fortunately, the game keeps track of all the hearts you find, and even before you find them, they will show up on the maps. If you want to see the hearts you’ve already met, follow these simple steps: press X to open the main menu.xenoblade Chronicle Affinity Heart to Hearts Menu (Image credit: Nintendo) using the left joystick or D-pad, scroll down on collect.press from a to to select collect.xenoblade c Affinity Heart to Hearts Menu (Image Credit: Nintendo) Using the left joystick or D-pad, scroll to heart-to-hearts.press a to Select enigammi(enigammi(uneM straeH ot traeH ytiniffA ehcanorC Nintendo)This will open up a list of every Heart-to-Heart you've found, including the ones you've completed.
